Attached is a revision of the above provisional application to put it in condition for filing as a regular application. The date for filing is on or before December 19, 2003, which happens to be my brother's 53rd birthday.

This is a UOP case. Maryann, I suggest that it be filed as a UOP patent application. If it is to later go to HyRadix, we can handle that by assignment. By filing with an assignment to UOP, while not necessary, we have a paper record to point to for common assignment obligation purposes.

Mr. Sanger is the sole inventor.

Please let me know if you require any further information. The drawings are fine.

Welcome back from Thanksgiving.
